

Phytocannabinoid Rich Hemp Oil

FULL SPECTRUM

ZERO THC

Our PCR Hemp Oil is made from organically grown non-GMO industrial hemp plants that are cultivated with very low THC content and grown with no pesticides.

Through an industry leading proprietary process in a *Good Manufacturing Practice* facility, the complete plant is used to extract the full spectrum of cannabinoids and terpenes. The result is a top quality hemp oil that is rich in phytocannabinoids and terpenes, but with **no** detectable **THC** or solvents. *

* *Independently lab tested and verified*

Recommended Use*

Shake well before each use. Use once or twice daily as desired. Place under tongue, hold for 60 seconds, and then swallow.

DO NOT REFRIGERATE. Keep at room temperature to preserve freshness. Store away from humidity, heat, and light. If any adverse reactions occur, discontinue use and consult your doctor.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

What is full-spectrum, phytocannabinoid and terpene rich hemp oil?

In much the same way that there are many varieties of apples or grapes, there are many, many varieties of hemp. Many people are aware of hemp that has been selected for its high THC content. Varieties of hemp that have high THC have been proven to provide health benefits to those who inhale the smoke generated by burning that type of hemp.

However, other varieties of hemp contain large amounts of phytocannabinoid other than THC as well as many aromatic compounds known as terpenes. Terpenes give many plants their pleasant aroma (such as lemon or pine) and terpenes provide their own health benefits (aromatherapy).

In the past, many products have focused on the benefits of one or the other of just a few of the compounds found in hemp, usually either THC or CBD. While these individual compounds can provide benefits, the entire spectrum of compounds found in hemp can provide far more. We refer to the synergy of all of these beneficial compounds as “The Entourage Effect.”

Phytocannabinoid Activity Table

Phytocannabinoid structure	Selected pharmacology (reference)	Synergistic terpenoids
<p>Tetrahydrocannabinolic Acid (THC)</p> 	<p>Analgesic via CB1 and CB2 (Rahn and Hohmann, 2009) AI/antioxidant (Hampson <i>et al.</i>, 1998) Bronchodilatory (Williams <i>et al.</i>, 1976) ↓ Sx. Alzheimer disease (Volicer <i>et al.</i>, 1997; Eubanks <i>et al.</i>, 2006) Benefit on duodenal ulcers (Douthwaite, 1947) Muscle relaxant (Kavia <i>et al.</i>, 2010) Antipruritic, cholestatic jaundice (Neff <i>et al.</i>, 2002)</p>	<p>Various Limonene <i>et al.</i> Pinene Limonene, pinene, linalool Caryophyllene, limonene Linalool? The TOP 5 Reasons To Join Today

1. THIS BUSINESS IS TRULY FREE, NOT JUST FREE TO JOIN

We offer the only 100% FREE affiliate program with a binary commission structure where you can earn infinitely deep commissions and NEVER EVER SPEND A PENNY.

2. EVERYONE YOU KNOW NEEDS THIS PRODUCT

We offer a spectacular health product. Our full-spectrum hemp oil contains the wide range of beneficial cannabinoids and terpenes found naturally in hemp. This is NOT a concentrated pharmaceutical type of product. Our product is as close to mother nature as possible.

3. WE OFFER TRUE SAVINGS

Network marketing products are usually priced much higher than other products. Our prices are lower than the vast majority of comparable products.

4. BINARY STRUCTURE

The sooner you join, the more people may “spillover” into your business organization. Don't wait. Join today.

5. WE REWARD TEAMWORK

We reward teamwork with 5 generations of matching bonuses. (100%, 50%, 50%, 50%, 50%). When you help other people earn their binary commissions, you can qualify to receive a matching bonus in addition to your own binary commissions.

Binary Commissions

Executive

Independent Marketing Directors who make just one sale left and one sale right advance to the rank of Executive and are PERMANENTLY qualified for the binary team commission. No purchase is required to qualify as an Executive.

- The Independent Marketing Director NEVER has to make a purchase of any kind. NEVER.
- Volume does NOT flush, even if you are not qualified. Your volume will continue to accumulate, even from members who have spilled over from above into your organization until you begin earning commissions.
- You DO have to generate one personally sponsored sale on both the left and the right side, but that is a one time, NOT an ongoing, monthly requirement.
- If you generate ONE sale (ever) on the left, and ONE sale (ever) on the right, then you will be qualified to earn binary commissions FOREVER. You NEVER have to make a personal purchase and the ONE-TIME sales on your left and right sides do NOT have to be repeated month after month.

These simple requirements are absolutely unheard of in the network marketing industry. A clear understanding of the ramifications of these simple requirements should dramatically increase your enthusiasm about this business opportunity.

No personal purchase is necessary for an Independent Marketing Director to earn team commissions in the binary. An IMD is NOT required to make a personal purchase in order to earn binary commissions. (This is unheard of in the network marketing industry).

To qualify for binary commissions, an Independent Marketing Director must make one sale on their left team and one sale on their right team. These sales may be made at any time (not the same month) and these sales only have to happen once.

After one sale is generated on each side, the IMD will be qualified to earn binary commissions PERMANENTLY.

Regardless of whether or not you make a purchase (or a sale) your volume will continue to accumulate and will not flush until you generate volume on both sides and begin to earn binary commissions. (These simple qualification requirements are unheard of in the network marketing industry).

Before you go any further, go back and re-read the information on the previous page. The simple qualification requirements needed to earn binary commissions on a PERMANENT basis are unheard of in the network marketing industry. Please understand the above details before you move forward.

As an Independent Marketing Director, you are NOT required to purchase anything (not ever). If you make one sale left and one sale right (ONE TIME), then you are qualified to earn binary commissions FOREVER with no additional personal sales and no personal purchases ever.

Regardless of whether or not you make a purchase (or a sale) your volume will continue to accumulate and will not flush until you generate volume on both sides and begin to earn binary commissions.

This information should dramatically raise your level of enthusiasm towards this opportunity.

Leadership Bonuses

DMC pays leadership bonuses to Independent Marketing Directors (IMD) for developing a team of other IMDs who earn binary commissions.

Ruby*

To qualify for Leadership Bonuses, the IMD must help two personal customers who become IMDs to each acquire their own two personal customers. This promotes the IMD to the title of Ruby. As a Ruby, an IMD is qualified to earn a Leadership Bonus equal to 100% of all Team Commissions earned by their personally enrolled IMDs.

Emerald*

To achieve the title of Emerald, the IMD must help two personally enrolled IMDs each reach the title of Ruby. As an Emerald, an IMD retains the benefits of a Ruby and is qualified to earn an additional Leadership Bonus equal to 50% of all Team Commissions earned by IMDs on that IMD's second and third referral levels.

Diamond*

To achieve the title of Diamond, the IMD must help two personally enrolled IMDs each reach the title of Emerald. As a Diamond, an IMD retains the benefits of an Emerald and is qualified to earn an additional Leadership Bonus equal to 50% of all Team Commissions earned by IMDs on that IMD's fourth and fifth referral levels.

*To maintain Leadership Bonus qualifications, an IMD must make a monthly product purchase of at least \$150 and maintain the required structure as shown in the graphic image below. Team members must be equally split between one's Left Team and Right Team.

What ingredients are in the product?

The only ingredients in the product are our unique strain of high quality, phytocannabinoid and terpene rich full spectrum hemp oil and Medium Chain Triglyceride (MCT) oil from coconuts.

When will the product be available?

The launch date is set for August 15, 2017. With new companies, many details need to be worked out, so take that with a grain of salt.

How much will the product cost?

One bottle will be \$62.50. If you look at what competitors are currently charging, you will see that our price is VERY competitive. The recommended option is the 3-pack for \$150.

In what countries will the product be available?

Initially, the product will only be available in the United States.

Can people in other countries participate in the business opportunity?

ABSOLUTELY!! Because NO PURCHASE IS REQUIRED, everyone around the world can join and participate in the compensation plan and earn binary commissions. Entrepreneurs around the world can use social media, email, phone, text, etc. to spread the word. They can refer people around the world. Commissions will be generated based on sales made to people in their downline who live in the United States.

Is the product patented?

No. However, the United States Department of Health holds a patent for the use of cannabinoids as a treatment for a number of ailments. We strongly recommend that you read the patent:

<https://www.google.com/patents/US6630507>

How will people around the world obtain products?

At this time, the company will not be shipping internationally. People around the world will have to make arrangements with their upline sponsors to obtain products (direct sales).

Is it really true that no personal purchase is necessary to earn binary commissions?

Yes. No personal purchase of any kind is required to earn binary commissions. Sales to other people ARE required. In order to be qualified to receive binary commissions PERMANENTLY (forever), all that is required is that you refer someone on your left side who places one order and also refer someone on your right side who places one order. The orders do not have to occur in the same month and they do not have to purchase over and over every month.

Will larger quantities be available?

Yes. It will be possible to purchase a 6-pack(\$300), 12-pack(\$600) and 24-pack(\$1,200).

What amount of all of the Cannabinoids and Terpenes are in the product?

Each batch is independently tested and comes with a Certificate of Authenticity.

Can this product get me “high”?

No. Our product is TetraHydroCannabinol (THC) free. THC is the chemical compound that can create the “high”. Our product does not contain THC and will not get people “high”.

Why is it so expensive?

Compared to competing products, our product is actually inexpensive. Other companies charge 30%-100%+ more than we do for a comparable product.

I have seen hemp oil in my grocery or nutritional store for a lot less money? Let me ask again, why is it so expensive?

Hemp SEED oil is available in grocery and nutritional stores. That is a dramatically different product. Hemp SEED oil is a good product that provides beneficial fatty acids, but the seeds of the hemp plant do not contain the bioactive cannabinoids and terpenes that are found in the other parts of the hemp plant. These beneficial compounds are extracted and concentrated in our product.

Is it legal?

Yes, but the question of whether or not something is legal depends upon the jurisdiction being considered. The manufacturer is licensed to grow industrial hemp in Colorado. We currently are able to ship product to all 50 states in the USA. Every country in the world has different laws and so we will be expanding around the world as the various countries laws allow.

Will this hemp oil cure my disease?

Obviously, you are the only person who can answer that question. The only way to answer that question is to do the scientific experiment yourself. Give the product a fair trial. Purchase three bottles and consume them as directed and determine for yourself whether or not you benefit from the cannabinoids and terpenes found in the product. Let us know what happens. We would love to hear about your experience.

Why haven't I heard of this product before?

It has taken over 7 years to cultivate the unique strain of industrial hemp that is rich in beneficial cannabinoids and terpenes with low enough levels of THC (<0.3%) to meet the guidelines for industrial hemp in the 2014 Farm Bill.

Does this product use “liposome technology?”

No. Our product is as lightly processed and as close to nature as possible. We do not add any ingredients other than Medium Chain Triglyceride (MCT) oil. Other companies offer more processed products with additional ingredients. Be sure to check the label and certificate of analysis on any product that you consider in order to determine exactly what that product contains.

Does it come in a form other than oil?

Hemp oil can be encapsulated, and we may offer capsules in the future. Some people prefer capsules, but capsules are not ideal in a number of ways. When you drop the oil under your tongue it can begin being absorbed directly into your system. You can easily mix the oil with other foods and, more importantly, you can vary the dosage as desired. Children, the elderly and many other people may have difficulty swallowing capsules and may need lower or higher doses (some children may actually need higher doses). Pets and other animals have different levels of cannabinoid receptors in their body, so the dosage varies from animal to animal.

DISCLAIMERS

Discount Membership Club (DMC) does not sell any investment, security, franchise, distributorship or business opportunity. Furthermore, DMC does not give advice regarding any investment, security, tax or legal matter.

No one is required to purchase DMC products or sales aids or to pay any charge or fee to become or remain a DMC member or Independent Marketing Director.

We make NO health claims for our products.

INCOME DISCLAIMER:

No commissions or bonuses are paid for enrolling new members or IMDs. THERE IS NO GUARANTEE OF INCOME WHATSOEVER! One's income is derived from personal product sales to customers and from the product sales to customers made by their team of Independent Marketing Directors.

FDA DISCLAIMER:

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

FTC ADVERTISING DISCLAIMER:

The person of business that provided you with this PDF may be an Independent Marketing Director with the Discount Membership Club and may receive compensation in the form of commissions and or bonuses when you purchase any of the products offered by the Discount Membership Club

INDEPENDENT MARKETING DIRECTOR:

This document is not an official corporate document. It is provided by an Independent Marketing Director.
